## **The Role of the Homeowner, Board of Directors, and Management Company**

In a community /neighborhood setting, it seems there is always confusion as to who owns the responsibility for events that occur during daily operations. To clarify these questions, we have provided a summary of when, where, what, why, and how to handle the unexpected challenges:

### **What is the Role of a Homeowner?**

As a homeowner, it is your responsibility to maintain your property at the highest possible level of repair, be courteous to your neighbors, adhere to the community bylaws, advise Management of all maintenance issues/liability issues/bylaw violations, be an active participant in your Association, and pay assessments promptly. Most importantly, REVIEW YOUR COVENANTS AND BYLAWS!

### **What is the Role of the Board?**

The Board of Directors is the governing agent for the Association as a whole and therefore must act in accordance with the recorded documents and bylaws. It is **not** the responsibility of the Board of Directors to manage the community. Issues that arise should be addressed with the Property Management Company. ***In the event a homeowner wishes to address a Board member, this should be done in writing and given to the Property Manager. It is improper to call them at home, work, or to knock on their door.***

### **What is the Role of your Management Company?**

It is the responsibility of the Property Management Company to handle the operations of the community. However, it should be noted that Apartment living is very different than that of Homeowners and you must keep the following items in mind.

- The Management Company reports to and acts at the sole Direction of the Board of Directors. While we strive to respond to each request made by homeowners, approval must be obtained from the Board of Directors. Please keep this in mind when requesting items such as replacing common area furnishings, landscaping upgrades, exterior painting, approving architectural requests, etc.

***It is suggested that these types of requests be put in writing and forwarded to the Property Manager so that they may be presented to the Board.***

- The Management Company is responsible for initiating all common area maintenance/repairs/upkeep. The Property Manager will inspect the community monthly and direct the appropriate vendors to respond accordingly.

Homeowners who notice deficiencies should notify the Property Manager of issues that come to their attention so they can be addressed.

- In the event an issue occurs which is beyond the control of Management such as city/county water line breaks, power outages, parking violations, security issues, loose pets, pet feces, unruly neighbors, poor lawn maintenance etc., We ask you to understand that the limit of the Board and Managements authority is to issue violations and fines, in the event the offending owner choose to ignore and correct the issue, legal action may be necessary Please understand that your Property Manager is at the mercy of due process and will make every attempt to expedite repairs but ultimately has no control of how quickly the situation is remedied.
- The Association is a **NOT-FOR-PROFIT CORPORATION**, and as such, the annual budget is a NET ZERO BUDGET. This means that all income is used to pay the expenses, and there are no excess funds to pay shortfalls if an owner does not pay their budgeted assessments. Each of you made a financial commitment to your neighbors to meet these fiduciary requirements, and therefore, you must pay your fees and your assessments as outlined in your budget. The Management Company is responsible for handling the financial affairs of the Association. This includes ensuring that all payables are handled promptly, researching invoices to ensure their accuracy, collecting all monthly Association dues, preparing monthly financial statements, preparing and submitting to the Board an annual operating budget, and maintaining records for future reference.
- The Management Company is responsible for keeping the Board of Directors informed of all issues that arise and acting in a manner as directed by the Board.
- The Management Company is responsible for enforcing compliance with the community bylaws, notifying the Board of covenant violations, and acting as deemed appropriate by the Board. This may include covenant violation notices to the homeowners as well as assessments of fines.
- The Management Company is responsible for obtaining bids for capital repairs and submitting them to the Board for approval.
- The Management Company is responsible for preparing and delivering all homeowner notifications.
- The Property Manager is available to answer any questions you may have. However, many questions can be answered by referencing the covenants and bylaws.

#### **WHO TO CALL:**

**Fire/Death:** In the event there is a fire/death in your home, please call **911 first**.

**Personal Attack/Break-in/Vehicle Theft:** All criminal activity should be reported to **911**.

**Water/Sewage Back-up/Floods:** Contact your local water provider.

**Violation of Bylaws:** Call **911**.

**Noise Complaints:** Per the Community Covenants, every homeowner is entitled to “quiet enjoyment” of their home. Per the city/county ordinance, **“Noise ordinances take effect each evening at 10:00 PM.”** To maintain harmony in the Community it is suggested that on the first occasion, homeowners attempt to work out the problem between themselves before calling law enforcement **call 911.**

**Note:** In the event law enforcement is called, and a noise problem is noted, there can be a fine of up to **\$500.00 per occurrence**. If you are planning a party, notify your neighbors and ask if they let you know if the noise gets out of hand. This will potentially keep problems from occurring.

**Neighbor Conflicts:** MANAGEMENT CANNOT intervene in conflicts between neighbors. We suggest that every attempt be made to resolve the issue to the satisfaction of all parties involved; however, if this cannot be accomplished and the conflict escalates, please **call 911.**

**Working together, the Board of Directors, Homeowners, and Management Company can make The Community a wonderful place to call home!!!**

**BE PREPARED FOR INCLEMENT WEATHER**

**HURRICANE & TORNADO:**

Hurricane & tornado weather can cause extensive property damage. Below, you will find suggestions on prevention measures you can take to minimize life safety situations as well as property damage.

When the Emergency Weather Center issues a Hurricane/tornado Warning advisory, the following procedures should be taken to ensure your safety and the safety of others.

1. All plants, furniture, and other items from your patio/balcony should be removed and moved indoors.
2. Remain calm and keep listening to local news about weather conditions.
3. Purchase in advance, bottled water, ice, and non-perishable items, such as canned food, packaged food, paper, and personal products, and a manual can opener.
4. Do not leave pets unattended outside.
5. Obtain necessary prescriptions and medications and keep them with you in the event of evacuation.
6. Keep flashlights and battery-operated radio/TV handy with extra batteries. Candles are NEVER RECOMMENDED!
7. Clean and fill the bathtub with water.
8. Automatic Teller Machines will not be working in case of a power outage. You will want to make arrangements for cash needs.
9. In the event of power failure, turn off all appliances and keep refrigerator door closed. (Food will stay cool for 24 hours.)

10. Fill your vehicle's gas tank before the storm arrives.
11. Avoid downed power lines and report them to your local electric company as soon as possible.
12. Take refuge in a small interior room during the storm.
13. Keep all windows and doors closed through the storm. Do not crack a window or door during the storm. Draw your verticals and drapery materials over the windows to protect yourself from the possibility of shattering glass.
